

RESOLUTION TO PROPOSE FOR ADOPTION DESIRED FUTURE CONDITIONS FOR RELEVANT AQUIFERS IN GROUNDWATER MANAGEMENT AREA 8

THE STATE OF TEXAS §
GROUNDWATER MANAGEMENT AREA 8 §
GROUNDWATER CONSERVATION DISTRICTS §

WHEREAS, Section 36.108 of the Texas Water Code requires groundwater conservation districts located entirely or partially within a groundwater management area designated by the Texas Water Development Board (“TWDB”) to propose for adoption desired future conditions (“DFCs”) for the relevant aquifers within each groundwater management area by May 1, 2026, and every five years thereafter;

WHEREAS, House Bill 2215 passed by the 85th Texas Legislature in 2017 provides that the statutory deadline for a GMA to vote on a proposal for the adoption of DFCs under Section 36.108(d) of the Texas Water Code is May 1, 2026, and requires the DFCs to thereafter be approved by resolution of the GMA not later than January 5, 2027;

WHEREAS, the groundwater conservation districts located entirely or partially within Groundwater Management Area 8 (“GMA 8”) as of the date of this resolution are as follows: Central Texas Groundwater Conservation District, Clearwater Underground Water Conservation District, Middle Trinity Groundwater Conservation District, North Texas Groundwater Conservation District, Northern Trinity Groundwater Conservation District, Post Oak Savannah Groundwater Conservation District, Prairielands Groundwater Conservation District, Red River Groundwater Conservation District, Saratoga Underground Water Conservation District, Southern Trinity Groundwater Conservation District, and Upper Trinity Groundwater Conservation District (collectively referenced hereinafter as “GMA 8 Districts”);

WHEREAS, the GMA 8 Districts are each governmental agencies and bodies politic and corporate operating pursuant to Chapter 36 of the Texas Water Code and their specific enabling statutes;

WHEREAS, the GMA 8 Districts each desire to fulfill the requirements of Section 36.108 of the Texas Water Code through mutual cooperation and joint planning efforts;

WHEREAS, the GMA 8 Districts last adopted DFCs for the relevant aquifers within GMA 8 on October 27, 2020;

WHEREAS, the GMA 8 Districts held meetings on September 5, 2024, October 31, 2024, February 25, 2025, June 24, 2025, August 29, 2025, November 14, 2025, January 29, 2026, February 26, 2026, and March 31, 2026 in order to comply with and publicly consider all nine factors listed in Section 36.108(d) of the Texas Water Code;

WHEREAS, the GMA 8 Districts used the best available scientific and hydrogeological data to establish the proposed DFCs;

WHEREAS, the GMA 8 Districts considered multiple model runs to establish the proposed DFCs;

WHEREAS, the GMA 8 Districts considered all of the nine (9) statutory factors set forth in Section 36.108(d) of the Texas Water Code before voting to propose the DFCs for the relevant aquifers in GMA 8, including:

- aquifer uses or conditions within the management area, including conditions that differ substantially from one geographic area to another;
- the water supply needs and water management strategies included in the state water plan;
- hydrological conditions, including for each aquifer in the management area the total estimated recoverable storage as provided by the TWDB executive administrator, and the average annual recharge, inflows, and discharge;
- other environmental impacts, including impacts on spring flow and other interactions between groundwater and surface water;
- the impact on subsidence;
- socioeconomic impacts reasonably expected to occur;
- the impact on the interests and rights in private property, including ownership and the rights of management area landowners and their lessees and assigns in groundwater as recognized under Section 36.002 of the Texas Water Code;
- the feasibility of achieving the desired future condition; and
- any other information relevant to the specific desired future conditions;

WHEREAS, the GMA 8 Districts considered groundwater availability models and other data or information for GMA 8 as required by Section 36.108(d) of the Texas Water Code;

WHEREAS, the DFCs proposed by the GMA 8 Districts provide a balance between the highest practicable level of groundwater production and the conservation, preservation, protection, recharging, and prevention of waste of groundwater and control of subsidence in the management area pursuant to Section 36.108(d-2) of the Texas Water Code;

WHEREAS, the GMA 8 Districts will document in the explanatory report required under Section 36.108(d-3) of the Texas Water Code all consideration of the factors and criteria required for proposing DFCs for adoption under Section 36.108 of the Texas Water Code;

WHEREAS, representatives of the GMA 8 Districts convened for a meeting to take up and consider proposing for adoption the DFCs for all relevant aquifers within GMA8, which was

open to the public, this day, the 31st day of March, 2026, at 10:00 a.m.;

WHEREAS, with voting representatives in attendance from at least two-thirds (2/3) of the GMA 8 Districts, the notice and meeting requirements set forth by Sections 36.108(e) of the Texas Water Code have been met regarding this March 31, 2026 meeting, and a true and correct copy of each of the notices required under Section 36.108(e) is included as Attachment “A” to this resolution, which is fully incorporated herein for all purposes;

WHEREAS, the GMA 8 Districts have adopted administrative procedures for the consideration, proposal, and adoption of DFCs, and the GMA 8 Districts find that the DFCs proposed by this resolution were considered and proposed in compliance with the requirements of those administrative procedures in all respects;

WHEREAS, the GMA 8 Districts find therefore that the notice and meeting requirements to take up, consider, and propose for adoption the proposed DFCs for all relevant aquifers within GMA 8 have been and are satisfied;

WHEREAS, the DFCs proposed by this resolution will be distributed by mail to the GMA 8 Districts, initiating a 90-day public comment period by which each district in GMA 8 must hold a public hearing on the DFCs proposed that are relevant to that district pursuant to Section 36.108(d-2) of the Texas Water Code;

WHEREAS, each district within GMA 8 will thereafter compile a written summary of relevant comments received at the public hearing held by the district, any suggested revisions to the proposed DFCs, and the basis for any such revisions, and will submit its summary report electronically to the GMA 8 Districts, and the GMA 8 district representatives shall reconvene to review the reports, consider any suggested revisions to the proposed DFCs, and finally adopt the DFCs for GMA 8;

WHEREAS, it is the intent and purpose of the GMA 8 Districts by adoption of this resolution to fulfill the DFC proposal requirements of Section 36.108 of the Texas Water Code; and

WHEREAS, the GMA 8 Districts find that the proposed DFCs for adoption in GMA 8 are in each instance merited and necessary to support the management of groundwater resources within the boundaries of the GMA 8 Districts in a manner consistent with the requirements of Chapter 36, Texas Water Code.

NOW, THEREFORE, BE IT RESOLVED BY THE REPRESENTATIVES OF THE GROUNDWATER CONSERVATION DISTRICTS WITHIN GROUNDWATER MANAGEMENT AREA 8:

- 1) Each of the affirmations and recitals set forth above are true and correct and fully incorporated into this resolution.

- 2) No less than two-thirds (2/3) of the authorized voting representatives of the GMA 8 Districts hereby propose the desired future conditions for the relevant aquifers within GMA 8 as those set forth in Attachment "B" to this resolution, which is fully incorporated herein for all purposes.
- 3) The GMA 8 Districts and their agents and representatives, individually and collectively, are further authorized to take any and all actions necessary to implement this resolution, including but not limited to the additional actions required for adoption of the desired future conditions in accordance with Section 36.108 of the Texas Water Code.

AND IT IS SO ORDERED.

PASSED AND ADOPTED on this 31st day of March, 2026.

NOTICE OF MARCH 31, 2026 GMA 8 MEETING
PROVIDED BY EACH OF THE GMA 8 DISTRICTS

**NOTICE OF MEETING
GROUNDWATER MANAGEMENT AREA 8**

Notice is hereby given that the groundwater conservation districts located wholly or partially within Groundwater Management Area (GMA) 8, as designated by the Texas Water Development Board (TWDB), consisting of the Central Texas Groundwater Conservation District, Clearwater Underground Water Conservation District, Middle Trinity Groundwater Conservation District, North Texas Groundwater Conservation District, Northern Trinity Groundwater Conservation District, Post Oak Savannah Groundwater Conservation District, Prairielands Groundwater Conservation District, Red River Groundwater Conservation District, Saratoga Underground Water Conservation District, Southern Trinity Groundwater Conservation District, and Upper Trinity Groundwater Conservation District will hold a **Joint Planning meeting at 10:00 A.M. on March 31, 2026 at the Prairielands Groundwater Conservation District Office** located at **208 Kimberly Dr., Cleburne, Texas 76031**. The meeting will be open to the public. The following items of business will be discussed and potentially acted upon:

1. Invocation.
2. Call meeting to order and establish quorum.
3. Welcome and introductions.
4. Public comment.
5. Consider and act upon approval of minutes from the February 26, 2026, GMA 8 meeting.
6. Discussion and possible action on the overview and timeline for DFC Joint Planning.
7. Discussion and possible action on the Northern Trinity and Woodbine Aquifer Groundwater Availability Model Update and review timeline.
8. Discussion and possible action on Model Run 4.8 for DFC Planning.
9. Discussion and possible action on additional model run for DFC Planning.
10. Discussion and possible action on how to state the Proposed Desired Future Conditions for this round of planning.
11. Discussion and possible action on the Proposed Desired Future Conditions for the Trinity and Woodbine Aquifers.
12. Discussion and possible action on the Proposed Desired Future Conditions for the Llano Uplift Aquifer System.
13. Discussion and possible action on the Proposed Desired Future Conditions for the Cross Timbers Aquifer.
14. Discussion and possible action on the Proposed Desired Future Conditions for the Edwards (Balcones Fault Zone) Aquifer.
15. Consider and act upon approving GMA 8 Resolution 2026-02 adopting the Proposed Desired Future Conditions for relevant aquifers in GMA 8.
16. Consider and act upon the draft GMA 8 Explanatory Report.
17. Updates from the TWDB.
18. Discussion of possible agenda items and dates for next GMA 8 meeting.
19. Closing comments.
20. Adjourn.

Dated this 5th day of March, 2026

Mitchell Sodek, Chair Groundwater Management Area 8

The above agenda schedules represent an estimate of the order for the indicated items and is subject to change at any time. These public meetings are available to all persons regardless of disability. If you require special assistance to attend the meeting, please call (855) 426-4433 at least 24 hours in advance of the meeting to coordinate any special physical access arrangements.

For questions regarding this notice, please contact Velma Starks at (855) 426-4433, at ntgcd@northtexasgcd.org, or at 5100 Airport Drive, Denison, TX 75020.

At any time during the meeting or work session and in compliance with the Texas Open Meetings Act, Chapter 551, Government Code, Vernon's Texas Codes, Annotated, the Groundwater Management Area 8 may meet in executive session on any of the above agenda items or other lawful items for consultation concerning attorney-client matters (§551.071); deliberation regarding real property (§551.072); deliberation regarding prospective gifts (§551.073); personnel matters (§551.074); and deliberation regarding security devices (§551.076). Any subject discussed in executive session may be subject to action during an open meeting.

Certification: I, the undersigned authority, do hereby certify that on March 12, 2026, at or before 4:00 p.m., I filed the above notice of meeting with the Burnet County Clerk's office for posting in the hallway of the Burnet County Courthouse in a place convenient and readily accessible to the general public at all times. I also certify that a copy of the notice was posted on the door and on an outside window of the District office and that they will remain so posted continuously for at least 3 business days preceding the scheduled date of said meeting in accordance with the Texas Government Code, Chapter 551

Mitchell Sodek, General Manager
Central Texas Groundwater Conservation District

Table 3. GMA 8 DFCs adopted for Prairielands GCD and Upper Trinity GCD for Northern Trinity and Woodbine aquifers based on minimum average percent of available drawdown remaining at existing wells.

GMA 8 Adopted DFCs - GCD Scale								
GCD	Woodbine	Paluxy	Glen Rose	Hensell	Hosston	Travis Peak	Twin Mnts	Antlers
Prairielands GCD	76%	85%	79%	66%	39%	39%	64%	-
Upper Trinity GCD	-	92%	88%	-	-	-	82%	86%

Table 4. GMA 8 DFCs adopted for Clearwater UWCD for Northern Trinity and Woodbine aquifers based on the minimum average remaining available drawdown at CUWCD Monitoring Wells at the end of 2080 from the end of 2020 available drawdown.

Aquifer	Remaining Available Drawdown
Upper Trinity (Glen Rose)	80%
Middle Trinity (Hensell)	10%
Lower Trinity (Hosston)	15%

Table 5. GMA 8 DFCs adopted at a county scale for Northern Trinity and Woodbine aquifers for those GCDs using a metric based on total average drawdown in feet (both unconfined and confined drawdown).

Table 7. GMA 8 DFCs in acre-feet per month spring/stream flow adopted for the Edwards (BFZ) Aquifer.

County	DFC
Bell	Maintain at least 100 acre-feet per month of stream/spring flow in Salado Creek during a repeat of the drought of record
Travis	Maintain at least 42 acre-feet per month of aggregated stream/spring flow during a repeat of the drought of record
Williamson	Maintain at least 60 acre-feet per month of aggregated stream/spring flow during a repeat of the drought of record

Table 8. GMA 8 DFCs adopted at a county scale for the Llano Uplift Aquifers based on total average feet of drawdown from 2010 - 2080.

County	Ellenburger-San Saba Aquifer	Hickory Aquifer	Marble Falls Aquifer
Brown	3	3	3
Burnet	12	12	11
Lampasas	15	15	15
Mills	9	9	9

Table 9. GMA 8 DFC adopted at the District scale for Upper Trinity GCD for the Cross Timbers Aquifer based on minimum average percent of available drawdown remaining.

GMA 8 Adopted DFCs	
District	Cross Timbers DFC
Upper Trinity	87%
